

iDTRONIC presents its new UHF EVO Desktop Reader for ISO18000-6 RFID Systems

Date: 10-14-2009 07:59 PM CET

Category: [IT, New Media & Software](#)

Press release from: [iDTRONIC Electronic Identification GmbH](#)

iDTRONIC, a leading supplier of RFID Hardware products, today introduced its new RFID Desktop Readers UHF from its EVO series for multi-tag transponder reading & writing.

This new USB Desktop Reader/Writer combine unique design with high functionality.

The UHF USB Desktop Reader of the modern EVO series offers the same features like iDTRONIC's EVO USB Stick UHF. The Desktop Reader supports ISO18000-6 B/C tags incl. Class1 Gen2. Thanks to its wide frequency band from 840—960MHz, the iDTRONIC USB Desktop Reader "EVO" – UHF Multitag can be used in for all international standards (usable in Europe, US and Japan).

The well-designed EVO desktop Reader allows an easy integration into most common RFID applications. A multi-Color LED allows intuitive interaction of the Application with the reader/writer. Its USB 2.0 interface offers high speed data transfer.

iDTRONIC's USB Desktop Reader EVO is a full Read / Write device which comes with a complete SDK and MS Windows based demosoftware. The Software Development Kit (SDK) contains easy-to-implement High-Level-Interfaces and Windows DLLs which permits fast and reliable Integration in Third-Party Systems.

The reader/writer is well-suited for classic Desktop applications like reading and writing Cards and Transponders. It can be easily integrated with POS devices, but also can be used for Ticketing, payroll systems, time attendance, and access control systems.

For more information about this RFID Desktop Reader and all other RFID Readers, email readers@idtronic.de or visit our website. www.idtronic-rfid.com.

About iDTRONIC Electronic Identification

iDTRONIC GmbH is a leading supplier for professional RFID Readers and RFID Tags / Transponders. iDTRONIC products are available for the passive RFID standards LF 125kHz, HF 13,56MHz and UHF 860–960MHz as well as an active system working on 2,45GHz frequency.

The range of professional RFID Readers include the industrial RFID Readers of the "Bluebox" series, RFID solutions for Mobile Terminals, RFID OEM Readers / Antennas and attractive RFID USB Readers.
