Press release from: [Dot Com Infoway](#)

Dot Com Infoway has emerged into the top 5 mobile application developers arena in India, as one of the most reliable mobile apps developer who can deliver custom mobile applications to its clientèle.

Dot Com Infoway has emerged into the top 5 mobile application developers arena in India, as one of the most reliable mobile apps developer who can deliver state-of-art custom mobile applications to its clientèle. DCI is considered as the fastest-growing major player in the rapidly growing domain of mobile and wireless application development. The spheres at which DCI's certified professionals show their Olympian distinction are Symbian application development, iPhone Application Development, Blackberry Application Development, Windows Mobile app development, and Android Application Development. Its mobile solutions are distinctively-designed apps, ranging from Wireless connectivity apps, data transfer utilities to various media enhancement apps under almost all major platforms and ever-changing mobile devices. Dot Com Infoway had cemented its prominence in the apps development segment, leveraging the most advanced technologies and a highly-result oriented developing environment for diversified mobile application development services.

Dot Com Infoway is one of the very few top companies, developing apps for all major mobile platforms and which also leads the exploration of evolutions in development techniques, and mobile technologies, driving the organizational agility and success. The professionals and expert engineers innovate the newest advantages in platforms like iPhone Xcode, J2ME, Google's Android, BREW, RIM Blackberry, Symbian, Windows Mobile Pocket PC, Flash Lite and other oncoming technologies. DCI's team has developed, very sophisticated applications in the above technologies spanning, verticals like sensor-based apps, Mail clients, Event-notifiers, financial tools & navigational applications, among others.

DCI is considered a vital determiner of the future of native apps, web apps, and hybrid apps. Being a pioneer in mobile application development, DCI has always been geared up to render the best mobile applications and solution. It has great competencies in areas like business utility apps development, mobile game development, social networking apps, Native mobile apps and framework development. Team DCI is an all-encompassing team combined with expertise and skills, catering the clients which best suits their requisites.

Recently, DCI had triggered an accelerated apps development targeting, some of the world's best selling smartphones like Nokia N97, Apples's iPhone, Sony's Xperia, HTC PDAs, Moto Droid, Omnia and some other Clamshell kings. Since the inception of mobile apps development wing, it has developed various next-generation applications for a wide range of vertical domains while growing the capability to develop and deploy enterprise-level mobile apps, which can optimize even a gigantic financial management system, or a simple digital content vertical. Adding to all, DCI's emphasis is on constant innovation with importance to value of technological initiatives.
