Therapist and leading British Hypnotist Richard MacKenzie has created an MP3 download to help Transgender, Transsexual and Transvestite clients to become more feminine. The new process known as Feminization Hypnosis comes as a result of many months of research by Mr MacKenzie into the effects of Hypnosis on both mental and psychical feminization.

When asked why he wanted to create the product he said, “My career has drawn me towards specialising in relationships and sexual issues and in my clinic here in the UK I get to work with a great deal of issues”, he added, “I was getting so many clients into the clinic for this feminization process and due to it’s success they just kept coming from all over the world. I decided to create the product so that more people will be able to get access to this Feminization Hypnosis process.”

Richard MacKenzie has had so much positive feedback from the global Transgender, Transsexual and Transvestite communities and when the products launched, his main site crashed as thousands descended on his site to get their download.
