

Binary Mantra Systems launches Web and Mobile enabled Hospital Management System

Date: 12-28-2009 02:18 PM CET

Category: [Health & Medicine](#)

Press release from: [Binary Mantra Systems](#)

IT products & services company Binary Mantra Systems (BMS) launched the enterprise edition of MediOps- their flagship Hospital management system. The enterprise edition enables outpatient and inpatient management including diagnosis and billing, Medical History, daily treatment and billing for inpatients. Other module of the software automates hospital's medical store to electronically manage requisitions, issues and inventory of medicines. This is a multi-user system with user management facilities. MediOps Lite, which was released in June 2009, caters to small hospitals/clinics with simple and quick patient registration, case history and billing processes. Doctors and support staff can generate bills in minutes.

Doctors can enquire about a patient's status on their mobiles sitting at home and also get notified when a new admission takes place. The same information can also be accessed on the web but in much more details.

About Binary Mantra Systems
