Press release from: [Dot Com Infoway](#)

Dot Com Infoway, one of the leading Software and Mobile application development company in the Indian Sub-Continent, will be exhibiting its outstanding software and mobile applications product line at the CeBIT, 2010.

Dot Com Infoway (DCI), is an Asian leader in custom software and Mobile application solutions, will be participating in the CeBIT 2010 trade fair, being held in Hanover, Germany, March 2-6, 2010. The company will showcase its range of software products along with its break-through Mobile applications. DCI will take advantage of this Fair's B2B potentialities and will demonstrate its applications to the European IT Business owners and other prospective global customers at the Marketpoint. The company considers it as the best opportunity to prepare for business at Spring Season, raising awareness of DCI's products to potential new partners and to maintain DCI's international client relations. DCI will attend the CeBIT, with the aim to consolidate the Global Business relations and to further develop the business activities for the European markets. Dot Com Infoway's stall #J23/1 will be located in Hall 6, which is this year's exhibit place for Mobile, web and E-Commerce technologies.

“Having consolidated our mobile application and software product product line, we feel that we have a great deal out there in the fair and eager to show our potentialities to the prospective European Customers. In addition to that, we provide numerous re-engineering and application optimization services along with market specific modifications. In the other way, we adapt our products to precisely fit unique market needs. I bet, You won't find that anywhere else in Asia”, said Mr.CR Venkatesh, CEO of Dot Com Infoway

This participation in CeBIT will offer Dot Com Infoway, a good opportunity to provide visitors information about its various software solutions and to establish contacts with new software buyers and vendors from the European, Far-East, Australian, American and other key markets. “Furnishing our expertise and vast resources in service of the IT goals is simply a part of our core mission. Dot Com Infoway's software applications empowers decision makers and their organizations with tremendous quality and financial health of their organizations,” explains Mr.VijayKumar Radhakrishnan, Chief Technology Officer at DCI.

To arrange a meeting please send a meeting request by e-mail to ask@dotcominfoway.com
