Press release from: [Dot Com Infoway](#)

DCI Mobile Studios, one of the premier mobile application development company has been voted as one of the top 25 mobile development companies in India.

DCI Mobile Studios, the mobile application development division of the leading custom software developer, Dot Com Infoway. Recently, DCI mobile Studios has been voted as one of the top 25 most reliable mobile development companies in India by the popular tech magazine “The Smart Techie”. The ranking, compiled by the Magazine, sources the most innovative providers of business and technology services and identifies leaders in different service areas spanning business process outsourcing, mobile development, IT outsourcing, and engineering. This significant industry recognition comes on the heels of DCI on strong improvements in its mobile development program. DCI has continued its growth, increasing revenue and expanding its mobile software development capacity by 25% by recruiting number mobile development professionals for all platforms.

"DCI is a one of the examples of a mobile application vendor, who is moving beyond, simply selling usual entertainment-based apps to customers, but rather delivering them unique app solutions and products. The robust mobile development environment and assortment of cutting edge developing tools used by DCI, sets high standards of excellence in development as evidenced by its users and the ranking in this survey." says Chief Technology Officer of DCI, Mr. Vijayakumar Radhakrishnan. Adding to this, CEO, Mr. CV Venkatesh said that “DCI is building upon its leadership in the mobile application development market and is now currently delivering the pure, next generation apps and games under all mobile platforms. We feel that a strong customer satisfaction has been demonstrated in this report and further, it confirms that DCI is on the right path."

In 2009, DCI introduced several new iPhone apps and games, which topped the iPhone app charts during the release, and the company has discovered some of the wonderful mobile app marketing strategies for all mobile platforms. Its mobile apps library includes Galatta magazine, Galatta Top 10 apps, Ojas life energy app, FruitBlox, PatternBlox games. The FruitBlox and PatternBlox are based on the popular gaming concepts of squaring and matching puzzles, which was made available for both iPhone and Android devices. At the same time, Ojas is digital-content based stress relieving iPhone app, which garnered positive reviews for its uniqueness. In the line, Galatta apps are digital content music streaming apps, which covers all major South Indian movie Industries. And during the end of 2009, DCI Mobile studio collaborated with Sony Music Entertainment India to publish an iPhone app based on a Tamil movie named “Vinnai Thaandi Varuvaya”, which is the first of its kind and is to be released, sooner.
