Press release from: [Infima Technologies](#)

MediaCell Video Converter is the best software for MP4/3GP file conversion of portable video device such as iPod/PSP/Mobile Devices. With unmatched compression ratio and speed while retaining the highest quality, MediaCell Video Converter can convert almost all kinds of video files such as AVI, MPG, MPEG, DivX, XviD, MOV, VOB, VCD, DVD, SVCD, WMV, RM, RMVB, 3GP, AMR, FLV, formats to MP4/3GP video files.

MediaCell Video Converter empowers users to enjoy all popular films with their iPod/PSP or Mobile Device. It is a must-have for anyone who wants to see video on any portable video device.

Key features:

- Innovative breakthrough technology which allows MediaCell to further compress Video files without causing any addition loss in video quality
- Smaller files while retaining highest quality of movie, For example:
 - 522MB AVI file was converted into 57.8MB high quality 3GP for nokia 6230
 - 35.7MB AVI file was converted into 7MB high quality 3GP for mot - razer
- Super fast conversion speed (7 times of the playback speed).
- Best quality video and audio.
- Hardware auto-detect: Automatically detect your hardware and decide the best converting speed.

This smart software is very easy to use without any special setting, only a few clicks complete the task of video conversion!

- Easy to use for the beginner as well as having advanced functions for the professional user.
- Supporting all portable devices including iPod, PSP, PDA, Pocket pc, PMP etc.

You can start to use it now and receive unlimited enjoyment from your digital life.
