Category: [Science & Education](#)

Press release from: [Innovative Solutions Bulgaria](#)

Sofia, Bulgaria – 20th October 2006

BudgetSensors®, a Bulgarian manufacturer of different probes and accessories for Atomic Force Microscopes (AFM) announces the appointment of NanoWin Corp. (www.inanowin.com), a leading distributor of Atomic Force Microscopy Systems and scientific equipment, as its sole distributor in Korea.

With this strategic move, BudgetSensors® will be able to supply its customers in Korea much more efficiently and for a much better price than before. In addition, the cooperation with NanoWin offers customers of BudgetSensors the experience and expertise generated by NanoWin as a long time distributor of Asylum Research (www.asylumresearch.com), a worldwide established manufacturer of high-performance Atomic Force Microscopy systems.

With NanoWin Corp. as distribution partner, customers of BudgetSensors® will be able to receive an excellent support and experienced advice in all questions connected with AFM measurements and the selection of the right AFM probe for each specific application.

More information on BudgetSensors®' distribution partners is available at: www.budgetsensors.com/distributors.html

About BudgetSensors® and Innovative Solutions Bulgaria Ltd.:

BudgetSensors® is a trade mark of Innovative Solution Bulgaria Ltd.
Established in 2001 and located in the Bulgarian capital Sofia, Innovative Solutions Bulgaria Ltd. offers a variety of products and services within its three divisions AFM Probes, Print & Design and Web & Programming.

The AFM Probe division manufactures and sells probes and accessories for Atomic Force Microscopes under the trade name of BudgetSensors® used by the most advanced R&D institutions worldwide. The Atomic Force Microscope (AFM) is one of the most important instruments for the Nanotechnology industry and research.

The Print & Design and Web & Programming divisions offer solutions for corporate design, presentation and promotion materials.
