Category: [Industry, Real Estate & Construction](#)

Press release from: [MVTec Software GmbH](#)

MVTec Software GmbH (Munich, Germany), manufacturer of standard software for machine vision, announces the release date of the new version HALCON 10 for 10/10/10. HALCON 10 will provide many great innovations for all machine vision users.

HALCON is the comprehensive standard software with an integrated development environment (IDE) for machine vision that is used worldwide. The new version HALCON 10 will further extend 3D vision and matching technology, and will again improve the usability of the development environment. As every new version, HALCON 10 will offer improved performance. Furthermore, many new market- and user-orientated code examples as well as detailed documentation will be included.

At the HANNOVER MESSE 2010, MVTEC Software GmbH will showcase live demos of machine vision applications.
