Press release from: [Cargo Cats, Inc.](#)

Mira Loma, California, March 12th, 2010— CARGO CATS, INC., a third party logistics provider which operates as an asset based corporation has subscribed the services of SMARTURN, an online inventory management system.

CARGO CATS, INC. has recently announced that they have subscribed the services of SMARTURN, an online inventory management system which allows them to provide customer access to their inventory data 24/7. The SmartTurn inventory control system helps the warehouse operators to establish optimum inventory levels by easily identifying the fast and slow inventory movers, thereby reducing costs and keeping inventory at the right levels. The SmartTurn inventory control software suite is an on-demand, web-based inventory control system that provides real-time information on the quantity, location, status and history of every inventory item within the warehouse at any time.

John Rojas, President of CARGO CATS, INC. says, “Our CARGO CATS team is excited as we implement operational improvements to go to the next level of customer service with the ability to provide accurate and easy access to our customers’ inventory data 24/7”.

CARGO CATS, INC. is a third party logistics provider which operates as an asset based corporation along with providing non-asset based services to assure best practice partners in achieving customer’s goals of a cost efficient, flexible and

integrated supply chain.

CARGO CATS, INC., offers 24/7 online access to the client's inventory and order entry with their Warehouse Management System (WMS). Our Warehouse Management System offers enhanced visibility of the inventory and transactions of our clients. The computerized system of CARGO CATS, INC. allows customers to enter their orders online, reducing the time and expense of processing orders via phone/fax. Additionally, the customer-entered orders are processed directly from what is entered by the clients to benefit them from reduced processing errors. The wide ranging services include transportation, warehousing, trucking, logistics management, railcar unloading, inventory control, supply chain management and cross docking.

CARGO CATS, INC. is a third party logistics provider which operates as an asset based corporation along with providing non-asset based services to assure best practice partners in achieving your goals of a cost efficient, flexible and integrated supply chain. The company offers transportation, warehousing, trucking, logistics management, railcar unloading, inventory control and many other advanced transportation services with access to their inventory data 24/7.
