Eighty percent of people with Lou Gehrig's disease die within 5 years of developing symptoms, and he had been experiencing them for at least a year! According to the statistics surrounding this disease, he had just lived 25 to 50 percent of the remainder of his life. Many of his cancer patients had a better prognosis than this

After personally experiencing the results of [www.the-healingcodes.com/](http://www.the-healingcodes.com/) techniques, he elected to learn the work in its entirety. He had also trained the staff in his cancer clinic in Atlanta, so that his patients can have the benefits of this great work, as well. Based on the results the staff was witnessing, he now knew that he had found the healing method he was searching for. "I know of nothing else that addresses and heals emotional and physical issues so effectively and completely" say's Dr Ben Johnson.

If one begins to comprehend frequency and the dynamics of plasma physics, which was espoused by Einstein in 1925 in his famous equation  $E=MC^2$ , one begins to understand that absolutely nothing is impossible. I believe that we are now beginning to comprehend and use energy in ways that were only conceived of in the past, and which are returning us to a greater understanding of our bio-energetic nature. I feel like Buzz Lightyear has come to life and is urging us "to Infinity and beyond!" It is going to be a great adventure in learning and healing.

[www.the-healingcodes.com/](http://www.the-healingcodes.com/) has made a bold leap into the realm of energy healing. It has avoided the mysticism that usually surrounds such therapies. It is philosophically and scientifically sound. Not to mention that it works ! I'm living proof of that !
