

ROTOCONTROL Enhances RSC Compact Slitter Rewinder Product Line

Date: 03-18-2010 10:46 AM CET

Category: [Industry, Real Estate & Construction](#)

Press release from: [ROTOCONTROL GmbH](#)

Ahrensburg, Germany (March 17, 2010) – Marco Aengenvoort, Managing Director, today announced numerous enhancements to the economical RSC compact slitter rewinder inspection machine product line including a new, moveable operator console, standard motorized slitting system, improved razor slitting cartridge as well as the addition of an onboard, 800mm roll lift option.

“We take customer feedback seriously and strive to accommodate special requests” states Marco Aengenvoort. “As part of our continuous improvement program, if a special request is a feature that will benefit other Converter applications, we will integrate it as a standard feature in the next generation product.”

The first general release of the RSC new features will be demonstrated at an Open House in Barcelona, hosted by ROTOCONTROL’s exclusive agent Esagraf, from March 23rd to the 26th. Converters will also observe the RSC integrated with a Nikka 100% vision system and Inkjet printing station. Additional Open House information is available through Esagraf + 34 93 721 03 25.

About ROTOCONTROL

ROTOCONTROL designs and manufactures leading edge inspection, slitting, rewinding and die cutting finishing machines for the narrow web industry. Available globally, ROTOCONTROL offers machines from smaller basic rewinders to feature rich, sophisticated models with multiple options. All utilize S-Drive Servo Technology enabling maximum web control for the most delicate film and foil materials. Headquartered in Ahrensburg (Hamburg), Germany ROTOCONTROL maintains the highest level of product quality through ease of use, absolute control and flexibility. ROTOCONTROL is the partner of choice in the finishing of label products.
