Prof. Dr.-Ing. Konrad Etschberger, founder of IXXAT Automation GmbH and co-partner of IXXAT Holding GmbH will end his operational activities as the Managing Director of IXXAT Automation GmbH on March 31, 2010 and will take up the position of Chairman of the Advisory Board of IXXAT Holding.

Together with the long-standing Managing Director and co-partner of IXXAT Holding, Dipl.-Ing. Christian Schlegel, Dipl.-Ing. Werner Sauter will manage the company as the Business Manager. Werner Sauter has worked for IXXAT since September 1, 2009 and is responsible for Sales, Marketing, Personnel and Business Management since January 1, 2010.

As the Director Retail Systems Market at Bizerba GmbH & Co KG, Werner Sauter was responsible for worldwide sales and product marketing of the Retail Systems division. Before that he managed the basic systems product division at Bizerba and in this position was responsible for hardware and software development as well as electronic production for components and systems.

IXXAT Automation is a leading provider of data communication products and services for the automation and automotive industries. The company focuses on industrial communication systems based on CAN (CANopen, DeviceNet), Ethernet (POWERLINK, EtherNet/IP, PROFINET, EtherCAT, Modbus-TCP), and TCP/IP with the associated transport protocols. Solutions for the automotive industry are mainly based on CAN (diagnosis protocols, SAE J1939), FlexRay, and LIN. IXXAT is experienced in the development of safety-oriented hardware and software in compliance with IEC 61508. In addition to designing system solutions and developing hardware and software, IXXAT supports the implementation and application of CAN and TCP/IP communication systems and offers training and consultation. The extensive product portfolio includes interface cards, test systems, analytical tools, and protocol software. Currently, the company employs a staff of 80, mostly electronics engineers and computer scientists. IXXAT has an ISO 9001-certified quality management system.
