Press release from: [Centre for Management Technology](#)

Algae Producers, Researchers, Algae Biofuel Technology Developers, End-users and Investors from 30+ countries gather in Brussels-BELGIUM to seek clarity at 2nd Algae World Europe. The May 31- June 1 conference offers a view into 4 essential aspects of the Algal value chain.

2nd Algae World Europe is meeting in Brussels on May 31- June 1, and Algae stakeholders from over 30 countries have already confirmed their participation for the conference.

Big Oil and Chemical companies including Exxon Mobil, Shell, Eni, PTT Public Co, Solvay, Braskem, Evonik Degussa, Kao Chemicals, Glacochemie and Power Producers Electrabel, GDF Suez, along with other key players and end-users like Roquette, Neste Oil, Unilever, Toyota, Philips Lighting, Cemex are among the many influential companies sending representatives to the conference.

The Algae industry is also hailing 2nd Algae World Europe as Europe's algae industry networking meet, due to the diverse range of participants spanning all essential Algal industry profiles. According to recently released conference attendee figures:

- 25% of Algae Producers & Algae Production Equipment Companies
- 20% of Oil, Power and Chemical company representatives
- 20% of Researchers from Top R&D institutions
- 10% of Biofuels company representatives
- 10% of Financiers, Investors & Bank representatives
- 10% of Algae end-users (Aquaculture, Nutraceuticals, Pharmaceuticals)
- 5% of Transportation industry representatives

The 2nd Algae World Europe agenda addresses the 4 key pillars of successful algae commercialization. They include 1-System Optimization for Large-Scale Algae Production; 2-Improving Algal Productivity & Processing Efficiency, 3-Developing High Value Co-products; 4-Promise and Reality of Algae Biofuels in an intensive 2-day session on June 1.

Conference panellists include representatives of the European Commission, Cyanotech (USA), Seambiotic (Israel), Solix Biofuels (USA), IngrePro B.V. (Netherlands), Alpha Biotech (France), SBAE Industries (Belgium), Proviron (Belgium), and many others. Conference participants also have the option to participate in a site visit to SBAE Industries' Algae production plant.

Those participating in 2nd Algae World Europe are to note that 31 May to 1 June are the new conference dates. The conference was rescheduled due to the volcanic ash cloud situation. Those who wish to attend the conference and site visit should register and pay online immediately due to limited seats availability.

#### About Centre For Management Technology

CMT is dedicated to organizing leading conferences on Liquid Natural Gas, LPG, future fuels like Biodiesel, Biofuels and alternative energy like Coal to Liquids, Gas to Liquids, Bio mass to Liquid Technology and this has established CMT as the market leader in promoting this nascent industry as an alternative global powerhouse.

Participants at its conferences leave armed with the latest knowledge on the industry and enriched with the exposure and networking experience with the global participants in the industry. In the current climate of fear of energy depletion from conventional fuel and spiraling energy costs, the only alternative and competitive edge is instant access to the latest comprehensive information on the current state of the industry.
