Best-selling author Wade Cook has announced a new web site that offers free instruction on stock market investment strategies. A free weekly newsletter provides simple to follow stock market investment methods.

Issaquah, WA -- Wade Cook, author of "Wade Cook's Stock Picking Handbook" and other best selling books, has created a new web site that offers free stock market investment strategies through a weekly newsletter.

Cook is the author of N.Y. Times Business best sellers such as "Wall Street Money Machine," "Stock Market Miracles," and "Business Buy the Bible." His current book is the "Stock Market Money Machine."

The new web site, www.LibertyNetwork.us, offers a comprehensive educational program for creating monthly income from the stock market, building net worth, and protecting and passing on family assets. Site visitors are able to receive the free weekly newsletter "Wade Cook's Tuesday Technique."

"I was once a cab driver in Tacoma, Washington. I wanted out, so I designed some simple cash flow formulas. The stock market is so risky, that I had to find a way to sell the risk to the risk takers and make a profit with safe, sane cash flow formulas that anyone can learn and copy from me," explained Cook.

The education and tools provided at the new web site are his way of sharing with others the unique wealth-building success strategies he has learned, according to Cook.

"Liberty Network was created to help people accomplish some basic goals. I teach them to make more money in business, real estate, and the stock market. I teach them to seriously reduce exposure to risk and liability, and minimize their tax liability. These strategies will enable them to prepare for a great retirement, and bequeath their assets to family, church, or charity in whatever manner they wish," said Cook.

He said that most Americans are one sickness or accident away from financial disaster, but could instead be making an extra income without getting an extra job.

"The difference between someone making \$30,000 a year and someone making \$90,000 is simply knowledge, and the application of that knowledge. I use the techniques that I teach. They work, and my students prove that they work every day. My goal is to help as many people as possible to find the financial stability they need," said Cook.

The free instructional newsletter is available by E-mail at www.LibertyNetwork.us and is sent out every Tuesday.
