Press release from: [ThatPRGuy](#)

Wade Cook, the N.Y. Times Business best selling author, now teaches his stock market techniques and strategies through a free E-mail newsletter. The former cab driver personally uses the methods he teaches to others.

Issaquah, WA -- Wade Cook, the N.Y. Times Business best selling author, is making his successful stock market investment strategies available in a free newsletter he sends out each Tuesday by E-mail.

The free newsletter is available without cost or obligation by going to [www.LibertyNetwork.us](http://www.LibertyNetwork.us) Names and E-mails are not used for any other purpose other than to send the weekly newsletter, according to Cook.

"Wade Cook's Tuesday's Technique" offers information and proven strategies that reduce risks and bring about monthly positive cash flow. The methods and strategies taught each week are the same as those Cook uses personally and teaches in his books.

"Liberty Network is designed to help people accomplish some basic financial goals. I teach them to seriously reduce exposure to risk and liability, and minimize their tax liability. These strategies enable anyone to prepare for a great retirement," explained Cook.

Recent newsletter topics have included writing a covered call, understanding how to use the "buy-back," and how to treat the stock market like a business and get your assets (stock position) producing real spendable income.

"The stock market makes a great part-time business, if you forget the old style ways and learn how to get your stocks producing monthly income. I do this by writing covered calls -- a powerful, yet seldom used cash flow technique. I teach this simple technique in my books and in my weekly newsletter," Cook explained.

Cook is the author of N.Y. Times Business best sellers such as "Wall Street Money Machine," and "Business Buy the Bible." He is also the author of "How to Pick Up Foreclosures," "Real Estate Money Machine," and "Stock Market Money Machine."

Cook was once a cab driver in Tacoma, Washington. He wanted to find a way to establish financial freedom for his family, and developed the techniques he now teaches to others. He personally uses the investment strategies he teaches in his books and newsletter.

"I designed some simple cash flow formulas. The stock market is so risky, that I had to find a way to sell the risk to the risk takers and make a profit with safe, sane cash flow formulas that anyone can learn and copy from me," explained Cook.
