Press release from: [PANATecs GmbH](#)

In the first half of 2010, PANATecs has had more successful supplier audits than ever before

7 July 2010

In June 2010, PANATecs was successfully audited by another major customer from the biotechnology industry. One again, PANATecs has convinced an important customer - a famous internationally active health company - of its high quality standards.

In the course of a detailed supplier audit, the auditing company obtained a detailed overview of the function and transparency of the quality management system, as actively experienced in PANATecs.

According to Alexander Cansier, Quality Management Officer and Head of QA, "During 2010, PANATecs has had more supplier audits than in the whole previous history of the company. This demonstrates the immense demand from the pharmaceutical and biotechnology industries for your protein analytical services."

PANATecs keeps the instruments for control, monitoring and continuous improvement of quality in the company absolutely state-of-the-art and actively uses these. By monitoring the processes, PANATecs assures that the quality in the company remains constant and is continuously striving for improvements in customer satisfaction and company organization.

PANATecs has been certified according to GMP-standards and ISO 9001.

This combination makes PANATecs a successful and respected outsourcing partner for customers from the pharmaceutical and biotechnology industries who value quality and performance.

PANATecs GmbH is a young and innovative service provider for the pharmaceutical, biotechnology and biotechnology industries. PANATecs employs high technology based on mass spectrometry to characterize the drugs of the future, which are to be used for the treatment of diseases which are difficult to cure. PANATecs has set itself the objective of becoming the market leader in service provision in protein analysis and will continue to expand its international business during 2010.

PANATecs is a spinoff from Tübingen University and celebrated its fifth birthday in 2009. PANATecs' team of highly qualified scientists supports technological progress in the life sciences industry.

The company has been certified according to GMP-standards and ISO 9001.
