Issaquah, WA -- N.Y. Times Business best selling author Wade Cook now offers his popular stock market investment strategies newsletter free of charge through his web site at www.LibertyNetwork.us

The newsletter, "Wade Cook's Tuesday Techniques," offers information and proven strategies that reduce risks and bring about monthly positive cash flow. The methods and strategies taught each week are the same as those Cook teaches in his books.

Cook is the author of N.Y. Times Business best sellers such as "Wall Street Money Machine," and "Business Buy the Bible." He is also the author of "How to Pick Up Foreclosures," "Real Estate Money Machine," and "Stock Market Money Machine."

The free newsletter is sent by E-mail each Tuesday, and is available without obligation by going to www.LibertyNetwork.us Names and E-mails are not used for any other purpose other than to send the weekly newsletter, according to Cook.

His books are available at any major bookstore. The web site also offers the full assortment of books authored by Cook at reduced prices.

"I work with the Liberty Network to help people accomplish some basic goals. I teach them to make more money in business, real estate, and the stock market. I teach them to seriously reduce exposure to risk and liability, and minimize their tax liability. These strategies will enable them to prepare for a great retirement, and bequeath their assets to family, church, or charity in whatever manner they wish," said Cook.

He said that most Americans are one sickness or accident away from financial disaster, but could instead be making an extra income without getting an extra job.

Cook was once a cab driver in Tacoma, Washington. He wanted to find a way out, and a way to establish financial freedom for his family. He personally uses the investment strategies he now teaches to others.

"I designed some simple cash flow formulas. The stock market is so risky, that I had to find a way to sell the risk to the risk takers and make a profit with safe, sane cash flow formulas that anyone can learn and copy from me," explained Cook.
