Press release from: [Server Intellect](#)

ORLANDO, FL. 7/21/2010 - Server Intellect [serverintellect.com](http://serverintellect.com) obtained the Microsoft Virtualization Competency expanding its ever-growing base of Microsoft competencies focused around Cloud Based Server Solutions.

The Microsoft Virtualization Competency assures customers that Server Intellect has the skills needed to build enterprise-class Virtualization and Cloud Server Solutions based on products such as Windows Server Hyper-V technology, Microsoft System Center Virtual Machine Manager, Microsoft application virtualization, Microsoft enterprise desktop virtualization, and Microsoft virtual desktop infrastructure.

Eric Pratt, Founder and CEO states "Server Intellect is proud to have obtained the 7th and most challenging competency to date in the Microsoft Partner Program. This competency is by far the most rewarding since becoming a Microsoft Gold Certified Partner in 2006. This certification clearly demonstrates our commitment to becoming a leader in delivering affordable, easy-to-use Cloud Based Server Solutions to customers worldwide."

Server Intellect spent 18 months building their custom 'Public Cloud' offering that required extensive custom programming and enterprise-class hardware routing solutions. The level of flexibility and scalability offered is truly groundbreaking in the Cloud Hosting market. The Public Cloud offering boasts automated website, mail server, and database failover, as well as full hardware redundancy, and cross-datacenter load balancing.

Server Intellect's 'Private Cloud' solution offers customers a platform to build their own custom Private Cloud in minutes. Customers have the ability to start with a single, hardware redundant server and scale their custom private cloud to hundreds of servers in a matter of minutes. The Private Cloud offering is the answer to what customers have been demanding from the industry for years.
