

## **DELTA PRESENTS THE SOLIVIA SOLAR INVERTER PRODUCT RANGE TO THE GOVERNMENT OF THAILAND IN BARCELONA**

Date: 07-29-2010 09:06 AM CET

Category: [Energy & Environment](#)

Press release from: [Delta Energy Systems \(Germany\) GmbH](#)

On July 2nd the Vice Minister for Interior of Thailand, Mr. Sorayut Phettakul, and additional representatives of the Thailand government attended a presentation in Barcelona, Spain given by Delta Energy Systems (Germany) GmbH. The Delta Sales Manager for Spain presented information about the Delta Group, details about the Spanish solar market and information about the new SOLIVIA solar inverter product line.

Delta Electronics (Thailand) Public Co. Ltd. - located in Samutprakarn, Bangkok – is the parent company of Delta Energy Systems (Germany) GmbH, and so representatives of the Thailand government were interested to learn more of their operations and activities. The European division whose main activities are dedicated to the development and sale of solar inverters seized the chance to present detailed information about their products but to also inform the representatives about general regulations, legislation and feed-in-tariff systems in Europe. Delta Sales Manager for Spain, Christian Schröder, says “European governments set a lot of good examples regarding feed-in-tariffs and the support of renewable energies. The growing PV markets in Europe are the result of this and should serve as a good example for further PV development in Asia too”.

Thailand’s goal is to increase the percentage of renewable energy in their cumulative energy sector to 20% by 2022.

### About Delta

#### Delta Electronics Group

Delta Group is the world's largest provider of switching power supplies and brushless fans, as well as a major source for power management solutions, components, visual displays, industrial automation, networking products, and renewable energy solutions.
