

Indoor surveillance with IP cameras from DIGITUS[®] Professional

Date: 07-29-2010 09:19 AM CET

Category: [IT, New Media & Software](#)

Press release from: [Assmann Electronic GmbH](#)

DIGITUS[®] Professional presents two new indoor surveillance cameras which are ideal for surveillance in the office and at home. The new updated, DN-16060 und DN-16061 cameras from DIGITUS[®] Professional are equipped with the latest technology and available now.

Both cameras give a very good video performance at the highest resolution. Very good lighting conditions can be reached, even under poor visibility conditions with a fixed focal length of f4.6 mm and a wide aperture lens of F1.9.

A CCD sensor of the latest generation is used offering a resolution of 768 x 494 Pixel NTSC / 752 x 582 Pixel PAL. The H.264 compression format offers a smoother picture with reduced network load at the same time.

"The DN-16061 surveillance camera from DIGITUS[®] is also suitable for night use and has an external loudspeaker input and also a built-in microphone for additional audio surveillance", really highlights the camera, says Harald Kintzel, Technical Director at DIGITUS[®].

Video data can be saved directly to a USB stick via an USB connection. By connecting a wireless LAN stick to a Ralink chip set (DIGITUS[®] DN-7044) the camera can be use as a wireless LAN camera.

Dealers can obtain further information from www.digitus.info. DIGITUS[®] products can be purchased by dealers from the usual distributors.

Editors receive a test sample by request from the press contact stated below.
