Press release from: [Mike Veny](#)

MikeVeny.com's drum store now offers digital music mixers in response to an increased demand for professional audio recording equipment. The drum store is donating a portion of all digital music mixer sales to charity.

East Meadow, New York - December 29, 2006 - "Music has given me so much. I feel that it's important to me to give back to others," says Mike Veny, the owner of the MikeVeny.com drum store.

The drum store has expanded its catalog to include digital music mixers. Many of the customers who purchased electronic drum sets were also shopping around for other pieces of professional audio recording equipment, especially digital music mixers.

Mike Veny says there are 3 main reasons more people are buying digital music mixers:

1. The number of recording studios being built is increasing by the day.
2. There is a need for smaller mixers because many people are building home recording studios.
3. The need to process many tracks at one time when recording while getting the best sound possible.

A digital music mixer is one of the most essential pieces of professional audio recording equipment.

The MikeVeny.com drum store is now offering digital music mixers to consumers. It offers many resources to help people find the digital music mixer that will suit their needs. MikeVeny.com has been selling drum equipment since 2004.
