Press release from: [Schutte & Hilgendorf PLLC](#)

Schutte & Hilgendorf, or the “Leading Edge Ladies,” as they are commonly called, live up to the moniker aptly. Schutte & Hilgendorf, PLLC is a women-owned CPA firm, located in Prescott and serving all of Yavapai County. The firm is predominantly women with two CPA owners; Gidget Schutte and Lois Hilgendorf, and three women staff; Katja Lopez, CPA, Crystal Garcia, and Rosie Clayton. Their token male, Adam Rutherford, CPA provides the male perspective and helps to maintain the balance.

As a women owned business, they take their responsibility seriously to promote the accounting profession to women of all ages. The partner’s personal stories are a testament to the joys and challenges of having a woman-owned business:

Gidget Schutte was raised in Blythe, California and moved to Prescott in 2001 after vacationing here with her family for many years. Out of college in 1990, she worked in public accounting, and industry accounting for the next 18 years. In 2008, just as the economy was taking a dive, the opportunity to buy an existing practice in Prescott came up and she and Lois decided to make a go of it. “We had been doing the work for so many years it just seemed natural that we could now put our name on the door.” The decision was still a tough one, with two young children at home at the time. “The challenge is trying to keep the balance between family and work however the best part is having that responsibility to make those decisions myself as the owner.”

Lois was raised on a farm in southern Minnesota and moved to Prescott with her husband and small children in 1978. Lois went back to get her accounting degree and obtained her CPA in 1992 while working full time for the predecessor firm and while her kids were cycling through high school. “It was very difficult, but I have no regrets and the pride of owning a business has been tremendous.” Her children are grown now and she juggles managing the workload with visiting her 6 grandchildren as often as possible.
