D.S.Kulkarni Developers Ltd, leading real estate and property developers in India, have come up with some truly lucrative pricing options for DSK Meghmalhar. Home buyers can now book a 1 BHK apartment for just 2.66 lacs\* and a 2 BHK apartment for just 4.31 lacs\* at Meghmalhar. According to a DSK spokesperson the EMIs are also expected to be quite affordable with the EMI for a 1 BHK apartment working out to INR 15,165 and INR 24,554 for a 2 BHK.

With home loans eligible for tax benefits under the Income Tax Act, many home buyers today prefer to pay regular EMIs which go towards building an asset in the long run as against paying rent which does not give any returns.

With the recent hike in lending rates announced by the RBI, home loan interest rates are set to go on an upward swing. In this backdrop, these profitable pricing options for the Meghmalhar project is bound to be well received by home buyers. In fact, according to a DSK spokesperson, this could be a prime chance for interested buyers to take advantage of these finance options and purchase premium quality real estate in Pune before the prices increase.

The DSK Group has tied up with several financial institutions and banks offering multiple finance options, where customers can avail up to 85% finance.
