Press release from: [Kreate Advertising Pvt Ltd](#)

Agency: **Kreate PR**

3rd September 2010, Mumbai: The Institute of Advanced Security Training & Management Pvt. Ltd. (ASTM), Mumbai, introduces first of its kind certificate & advanced courses in security management for students as well as for professionals from the field. The institute offers a 360 degree, comprehensive approach to training related to security management with highly experienced and qualified instructors and industry oriented content. The added advantage is the expertise of Zicom Electronic Security Systems Ltd., the leader in electronic security solutions in India.

The training programs offered by ASTM are customized to meet the security needs of different industries and marketing verticals like Airports, Power Plants, Heavy Industries, Hotels, Malls, Multiplexes, Banks, IT Offices, BPOs, and Government Offices etc. Director of ASTM, Mr. Manohar Bidaye says “ASTM offers corporate training programs for security personnel already on the field, as well as educational training to build a cadre of competent security professionals. It also offers training programs in electronic security technology for professionals working in the security systems integration business. Our vision is to foster a secure environment in India by imparting world-class, quality training and education in Security, Safety and Loss Prevention.”

An overview of the courses:

For Students - Certificate Course in Security Management

The Certificate Course in Security Management Program has been designed by combining innovation with academic excellence. Once students complete the program, they would be completely equipped to handle business activities in the security service sector. They will be provided the necessary assistance to make a successful career on completing the program. ASTM also has an extensive experience in design and development of training programs providing better skill levels, which are leveraged to effect better placements for all students.

Duration: 5 months

Qualification: Min. HSC & above

For Corporate Training

Basic Corporate Security Training

Advanced Corporate Security Training

Security Guard Skill Enhancement Training

Security Guard Skill Enhancement and Arms combat Training

Short Terms Courses

8 week full time course in Security Management for Ex-Servicemen – Army, Navy & Air force (JCO's & NCO's), daily 6

hours from Monday to Friday

Career Opportunity and Placement Assistance: ASTM will provide all the necessary assistance to help students make a successful career upon completing the program by facilitating the placement of successful candidates in reputed security companies across India, through a team of dedicated placement professionals that take care of both industrial training and final placements.
