Press release from: [Goji Berries Inc.](#)

Gojiberries.us announced its free shipping offer for Goji Berry orders in the continental USA.

Goji Berries Inc. ([www.Gojiberries.us](http://www.Gojiberries.us)) announced today that it is now offering free shipping on all Goji Berry orders above \$40. This offer is good for deliveries in the continental USA only.

"The goji berries we sell, are grown in the Tibetan and Mongolian Himalayas, so you know that you're getting only the highest quality product available from a pollution free environment", reported Jeni Bachelder, owner of gojiberries.us. Goji berries are considered the most nutritious and richest antioxidant food source on earth.

"Recently a customer reported that their dog was feeling very unwell and tired all the day but he became very active after we started mixing Goji juice with his diet. This testimonial ([www.gojiberriesblog.com/](http://www.gojiberriesblog.com/)) adds to the several we have about the effect of Goji on the overall health of humans as well as pets", Jeni added.

Goji is fast becoming a popular health-food in USA and some people prefer to have Goji juice over eating the Goji berries directly. Goji berries are the richest in vitamin C. One ounce contains 500 times more vitamin C than oranges. Besides this, they are packed with vitamin A, B1, B2, B6, and E. They are fast gaining popularity as an antioxidant. These berries have not 10 or 15, but 18 amino acids! This is more than what bee pollen does. And this is not all. They have 21 trace minerals, higher beta carotene than the humble carrot, and linoleic acid.

They are also reported to be selling several package deals ([301url.com/goji-berries-packages](http://301url.com/goji-berries-packages)) offering a mix of the fresh Goji berries, dried berries and juice. It is also possible to grow Goji locally with the help of Goji seeds and seaweed fertilizer available with Gojiberries.us.

###

Goji Berries US is the online store where you can order Goji berries, Goji juice and Goji seeds in small and wholesale quantities at very competitive rates. These are directly imported from the Tibetan Himalayas and help to improve your vigor and energy levels with the rich antioxidant properties. They now carry seaweed fertilizer, in both wholesale and retail formats, to aid those desirous of growing their own Goji berries. Visit their online store at [www.GojiBerries.us](http://www.GojiBerries.us).
