Author Wade Cook, N.Y. Times Business best selling author, has announced a new web site that offers a free newsletter offering stock market investment strategies.

Issaquah, WA -- Wade Cook, best-selling author and seminar instructor, now offers a free weekly stock market investment newsletter by E-mail.

Cook is the author "Wade Cook's Stock Picking Handbook" and "Stock Market Money Machine" as well as N.Y. Times Business best sellers such as "Wall Street Money Machine," "Stock Market Miracles," and "Business Buy the Bible."

His web site at www.WadeCook.org offers a comprehensive educational program for creating monthly income from the stock market, building net worth, and protecting and passing on family assets. Site visitors are able to receive the free weekly newsletter "Wade Cook's Tuesday's Technique."

"I teach people how to treat the stock market like a business. We use the market to generate take home income. If you want more cash flow, this is a great way to get it," said Cook.

The education and tools provided at the new web site are his way of sharing with others the unique wealth-building success strategies he has learned, according to Cook. These are the same techniques contained in his many books, and taught at his weekend seminars.

"I teach people to make more money in business, real estate, and the stock market. I teach them to seriously reduce exposure to risk and liability, and minimize their tax liability. These strategies will enable them to prepare for a great retirement, and bequeath their assets to family, church, or charity in whatever manner they wish," said Cook.

He said that most Americans are one sickness or accident away from financial disaster, but could instead be making an extra income without getting an extra job.

"You can get a second paycheck without getting a second job," he said. "The difference between someone making \$30,000 a year and someone making \$90,000 is simply knowledge, and the application of that knowledge. I use the techniques that I teach. They work, and my students prove that they work every day. My goal is to help as many people as possible to find the financial stability they need," said Cook.

The free instructional newsletter is available by E-mail at www.WadeCook.org and is sent out every Tuesday.

"If you'll do for two years what most people won't do, you'll be able to do for the rest of your life what most people can't do," said Cook.

Wade Cook works with LibertyNetwork.us to provide information to as many people as possible on the investment strategies he uses to create wealth.
