Press release from: [Guild Launch](#)

Glen Allen, VA, February 1, 2007. Guild launch has created a free full featured and ready to use guild hosting application for the MMORPG gaming industry for games such as World of Warcraft, Guild Wars, City of Heros, EverQuest, and for games that are in still development such as Age of Conan, Lord of the Rings Online , and the highly anticipated WarHammer Online.

Guild Launch has built an application that serves guilds with an easy to use application that is adaptable and expandable to fit a guilds needs regardless of the game they are playing. In addition to basic guild features like guild forums, guild roster, calendar, file library, bank, and news they have created a selection of widgets to add usefulness to the guild site. Widgets are small informational snap shots into the larger features.

Guild Launch also offers additional premium upgrades to its service such as a custom built dkp system called "Rapid Raid". There are many DKP systems on the market but "Rapid Raid:" through "Guild Logic" is unique by anticipating information needed by users and pre-fills forms and shares data through out the site. Rapid raid is also configurable to adapt to any guilds chosen dkp method .From guild application to raid participation all features are designed to collect the most amount of data in the shortest amount of time. Other premium upgrades include Ventrilo voice communications, domain names, and increased storage capacity.

Guild Launch will be continuing to release new features and social networking tools into their guild application along with more out of the box functionality for thiei hosting application for MMORPG guilds.

Guild Launch was founded to provide quality guild hosting services to a rapidly evolving and demanding online gaming market. Our mission is to provide the members of MMORPG and FPS gaming communities, guilds, teams, clans, PvP teams etc., with affordable and state of the art guild hosting and managment tools that enable guild leaders and guild admins to spend less time managing their website and more time playing the games they love.
