TrafficWave has inspired a group of Internet entrepreneurs calling themselves the "Freedom Team" to create an automated online business opportunity. The automated business works like a vending machine online.

Spring, Texas -- Many people would like to own their own business on the Internet, but they lack the experience and funds necessary to start, so a group of Internet entrepreneurs have joined forces to help others start an automated online business opportunity using TrafficWave.

The group calls themselves the "Freedom Team" and offers a free report at FreedomResidualIncome.com/cp.php sent by E-mail. The report details how to earn a five-figure monthly income using TrafficWave set up as an Internet vending machine.

"I like what the members of the "Freedom Team" are doing. I wanted to begin an online business, and I also like the idea of recruiting others to join the opportunity as well," said Vita Osborn, a member of the Freedom Team.

Her children Mario, Anthony, and Sophia have also joined in the business. "This is a great family project. Other families can benefit from this too," said Osborn.

The group offers to help anyone start an online business. They provide a web site, install all the automated software, and provide advertising to bring customers to the web site. Then the "Freedom Team" helps the new business owner recruit others to participate through network marketing.

"For less than \$18 anyone can have their own automated business on the Internet. It works just like a vending machine. People visit the vending machine, get the information they need, and then they make a purchase without any involvement from the business owner. I like it because after it was set up all I had to do was run advertising and the web site did all the rest of the work for me," said Mario.

Most people who join a network marketing business opportunity struggle to make money. The "Freedom Team" works with each person who joins to make sure they are successful.

"When I signed up they went right to work and helped me with everything. They run ads to help me get customers, and they taught me how to do additional advertising myself. This is not like some opportunities that recruit you and then wish you luck. The 'Freedom Team' act like partners and do most of the work for me," said Anthony.

Press release services provided by www.ThatPRGuy.com

The "Freedom Team" is made up of a group of independent marketing representatives who work together as a team to recruit and train new members of their group. They offer an automated, online business opportunity that is described in a free report available at FreedomResidualIncome.com/ct.php
