Best-selling financial author Wade Cook a weekly newsletter containing strategies taught in his books and seminars free on the Internet. "Wade Cook's Tuesday Technique" offers proven stock market investment strategies.

Issaquah, WA -- Monthly cash flow from stock market investing is something anyone can learn to do, with the help of Wade Cook and his free weekly newsletter.

"I teach people how to treat the stock market like a business. We use the market to generate take home income. If you want more cash flow, this is a great way to get it," said Cook.

Cook, well known as a N.Y. Times Business best selling author and seminar presenter, now offers his popular stock market investment strategies newsletter free of charge through his web site at www.WadeCook.org

The newsletter, "Wade Cook's Tuesday Techniques," offers information and proven strategies that reduce risks and bring about monthly positive cash flow. The methods and strategies taught each week are the same as those Cook teaches in his books.

Cook is the author of books such as "Wall Street Money Machine," and "Business Buy the Bible," as well as others such as "How to Pick Up Foreclosures," "Real Estate Money Machine," and "Stock Market Money Machine."

His books are available at any major bookstore. The web site also offers the full assortment of books authored by Cook at reduced prices.

"I work with the Liberty Network to help people accomplish some basic goals. I teach them to make more money in business, real estate, and the stock market. I teach them to seriously reduce exposure to risk and liability, and minimize their tax liability. These strategies will enable them to prepare for a great retirement, and bequeath their assets to family, church, or charity in whatever manner they wish," said Cook.

He said that most Americans are one sickness or accident away from financial disaster, but could instead be making an extra income without getting an extra job.

Cook was once a cab driver in Tacoma, Washington. He wanted to find a way out, and a way to establish financial freedom for his family. He personally uses the investment strategies he now teaches to others.

"I designed some simple cash flow formulas. The stock market is so risky, that I had to find a way to sell the risk to the risk takers and make a profit with safe, sane cash flow formulas that anyone can learn and copy from me," explained Cook.
