

'Innovation price' for modern differential pressure measuring technique for high-quality technical products

Date: 02-28-2007 04:49 PM CET

Category: [Business, Economy, Finances, Banking & Insurance](#)

Press release from: [Michael Richter - International marketing and sales consultant](#)

Starting in 1988 Messrs. Suchy Messtechnik, Lichtenau/Germany, offers a comprehensive range of products as well as consulting and service regarding all aspects of measurement technology. The wide programme of pressure gauges, pressure transmitters, pressure sensors and accessories offers solutions for every possible technical task.

In the end of 2006 Messrs. Suchy Messtechnik gained the 'Innovation price' for their new 'Differential pressure sensor SDD30'. This newly developed sensor consists out of two independently measuring pressure cells.

Thereby a simplified installation is made possible. The sensor is e. g. used for filter monitoring, in different engineering tasks, environmental techniques or to supervise differential pressures between supply and reflux within heating systems.

Furthermore, in order to improve the client support - speed-up for clients to find the suitable products -, the website had been newly arranged.

The Company-Slogan points it out:

SUCHY MESSTECHNIK . . . a d j u s t e d . t o . y o u

The worldwide clientele is served by local representatives, whereas customer oriented service is the focus - delivery of first-class measuring technique products, high flexibility and fast reaction to customer requests.
