

Ready for Windows® Vista

Date: 03-29-2007 08:21 AM CET

Category: [Industry, Real Estate & Construction](#)

Press release from: [BMC Messsysteme GmbH \(bmcm\)](#)

Maisach/München. Drivers and software from bmcm are compatible with Windows® Vista.

On January 31st, 2007 the latest version of the Microsoft® operating system was released after 5 years: Windows® Vista. In contrast to the fears of many manufacturers the BMC Messsysteme GmbH can guarantee their customers, that the entire software (programs, drivers and programming interfaces) of the up-to-date bmcm "Software Collection" CD can be installed and used directly without any updates being necessary.

That means that all data acquisition devices, measurement cards and data loggers from BMC Messsysteme GmbH are operable immediately with Windows® Vista.

Also the professional software for measurement data acquisition and analysis NextView® 4 is installable right away and presented under Windows® Vista in the new Aero look. A demo version is provided on the website for free (--> www.bmcm.de/software/nv4/index-us.html).

Again the manufacturer of PC measurement technology "made in Germany" proves its maxims: future orientation, continuity and stability.

*** About BMC Messsysteme GmbH ***

BMC Messsysteme GmbH was founded in 1994 as an independent corporation with headquarters in Maisach, app. 30 km west of Munich. Until today this autonomy could be kept, so that any affiliation to a business group never existed and is not intended for the future. bmcm is one of the only German companies that completely develops and produces all products in Germany, which means quality "made in Germany" at an excellent price/performance ratio.

BMC Messsysteme GmbH serves two business areas:

* Measuring components and PC measurement technology *

This comprises a wide range of connection systems, measuring amplifiers, data acquisition systems, data loggers and the appropriate software.

www.bmcm.de/us/prgr-products.html

* D2M (Design to Manufacturing) and OEM products *

BMC Messsysteme GmbH develops and produces electronic components according to customer specifications.

www.bmcm.de/us/co-d2m.html

You will receive high-quality products manufactured already since the beginning of 2006 according to the RoHS directive. Of course, the corresponding documentation and CE test is always included.

A German documentation is obligatory for us, as well as an English description to be available to our international customers.
