Sudoku is an addictive braintease and logic-based number placement puzzle. The objective is to fill a 9x9 grid so that each column, each row, and each of the nine 3x3 boxes contains the digits from 1 to 9. The puzzle setter provides a partially completed grid. Two degrees of difficulty might be selected. It's tricky – the ideal challenge for everyone who enjoys brainteasers. Anyone should have this brainteaser on his or her mobile phone.

Indispensably for every smart jigsaw puzzle-fan who is good at remembering figures. The free mobile game is compatible with many mobile phones. The download offer is financed by adverts and is free available at www.zelfi.com/en/mobile-games/for-free/sudoku-free/.
