

Travel Buggy Gears Up For Arrival Of Easter Babies

Date: 04-06-2007 06:15 PM CET

Category: [Tourism, Cars, Traffic](#)

Press release from: [Travel Buggy Services Inc.](#)

Easter is around the corner and many families will be visiting Montreal to see grand-parents and friends. Travel-Buggy's baby equipment rental service can really lighten the load if you're travelling with a baby or small child.

Visitors can rent strollers, cribs, car seats and a host of other essential baby items when they stay in Montreal and surroundings, rather than having to bring all their bulky baby equipment with them. Likewise, Montrealers expecting family and friends travelling with small children can profit from this service without having to buy and store these cumbersome items.

Travel-Buggy is the only company of its kind in Montreal. Lisa Knight, President of Travel Buggy Services Inc. (www.travel-buggy.com) started the baby equipment rental business in April 2006 to service a currently untouched market. Baby equipment rental is becoming a booming business now that increasing numbers of families are travelling for pleasure AND business.

Parents will be secure in the knowledge that they can rent safe, clean equipment for their short-term stays in Montreal and surroundings. Travel-Buggy delivers and picks up all equipment, leaving visitors more time to enjoy their vacation.

Have fun in Montreal this Easter, and forget about hauling all of your baby equipment! Travel-Buggy makes it easy to enjoy your trip. Contact us today at 514-659-2323 to reserve your crib, stroller or car seat or order online at www.travel-buggy.com

Travel Buggy Services Inc was started in April 2006 by Lisa Knight, who is herself a mother of two beautiful children. Travelling always posed its challenges with two small children in tow, and Lisa thought there must be an easier way. After some research, Lisa realised that she could be the first in Quebec to run a business such as this, and that's how the company was borne.
