Press release from: [American Air & Water®, Inc.](#)

Hilton Head Island, SC, May 8, 2007 - American Air & Water®, Inc. awarded exclusive Canadian distribution of UV disinfection systems to Canadian Air & Water, Inc. in an agreement signed by the two companies. The exclusive distributor will market the UV systems under the corporate brand Canadian Air & Water™ and the distinctive sub-brands: Air Asure™ and Asure Water™.

American Air & Water®, Inc., a South Carolina Corporation, offers a complete line of UV air, surface and water disinfection systems which greatly reduce or eliminate microbial contaminants in the air or water for industrial, commercial and residential establishments. In addition, American Air & Water®, Inc. will support Canadian Air & Water, Inc. with proprietary knowledge, engineering and formulas for the UV systems as well as proprietary marketing materials, including video, web sites, catalogues, brochures and training information.

Canadian Air & Water will use its business expertise to promote the acquisition, resale, distribution and installation of UV air and water disinfection systems in Canada. Canadian Air & Water is dedicated to become a premier source for the most extensive line of ultraviolet air and water purification products and services currently available across Canada.

Canadian Air & Water's mission is to deliver the best air and water purification systems and services for virtually every building and process environment in Canada. "Customers come first in our philosophy of building strong relationships with our marketplace. Our people are what make us strong and we build our company with their dedicated support to develop an improved standard of protocols for critical air and water infrastructure in Canada."

Warren Lynn, President of American Air & Water®, Inc. states "We are pleased to have secured our relationship with a Canadian organization headed up with people like Robert Tulk. This is a match made in heaven that will help us achieve our vision of providing a healthier and safer tomorrow. To that end, we will continue to passionately pursue our mission of discovering and delivering products which enhance the quality of life. We will continue our journey and compile global information on health related products to facilitate, educate and collaborate with all available resources to create awareness with all people and help mankind by creating a healthier environment".

For additional information on the exclusive Canadian distributorship contact Warren Lynn or visit American Air & Water®, Inc. website: www.americanairandwater.com

American Air & Water®, Inc. is dedicated to developing and delivering solutions for reducing human exposure to environmental pollutants as well as controlling the spread of harmful microorganisms inside homes, offices, hospitals, farms - most any indoor environment.

American Air & Water®, Inc. carries products and offer solutions for reducing the costs of air conditioning, improving indoor air quality and increasing comfort and productivity by creating a healthier indoor environment. Our thorough protocols identify the source of pollution and contamination and prescribe steps for remediation of the problems and measures for protecting the building from recurring contamination. Once the environmental control techniques are implemented and a building is recognized and certified as healthy, it is our guarantee that it will offer a safer, healthier, more comfortable and more productive environment.
