Press release from: [Atlantic City Hotel Experts LLC](#)

Atlantic City, NJ – May 15, 2007 - Ginn Computer Company (tenant.com) in partnership with the Atlantic City Hotel Experts LLC (achotelexperts.com) are proud to announce the launch of AtlanticCity.Net their new comprehensive Atlantic City, NJ destination website. The new site features fresh new content and detailed information about everything there is to do in Atlantic City, New Jersey. The most unique feature is that it allows customers to purchase Atlantic City tour and attraction tickets, book live online golf tee times, buy show tickets, make restaurant reservations, reserve spa appointments, book Atlantic City hotel and casino reservations and purchase nightclub passes. No other Atlantic City site offers these features. Users can also access information about limousine companies and print exclusive free coupons.

AtlanticCity.Net was designed by Master Minds Advertising www.masterminds1.com located in Egg Harbor Township, NJ. The site design includes a state of the art layout with elements of latest versions of Adobe Flash and Dreamweaver. “During the test pilot, customers reported that it was the nicest looking and easiest to use Atlantic City site anywhere online” said John Jackson, Vice President of Marketing.

www.AtlanticCity.Net was designed to target the younger Atlantic City vacation demographic. The site will sell unique banner advertising on every page with a banner size of 170 X 100 which offers the opportunity to design some really catchy ads. Atlantic City is much different than it used to be, AC now has some of the hottest nightclubs on the east coast and is attracting new fun and exciting businesses. For example, check out the Wild Cat Thrill Boat Ride that travels 60 mph while jumping wave after wave in front of the Atlantic City beaches or try the Steel Pier Skyline Helicopter Tour that takes you for an exhilarating ride above the beaches and over the Atlantic City casinos. The new AC also includes highly acclaimed golf courses and several new restaurants located inside the Pier at Caesar’s and Quarter at the Tropicana. Don’t forget to check out the new stores that have opened at “The Walk” – Atlantic City Outlets in May 2007. Enjoy the website and have fun inside the new Atlantic City.

Ginn Computer Company owns and operates a vacation rental website called www.tenant.com and the Atlantic City Hotel Experts LLC own and operate a website www.achoteexperts.com that transacts hotel reservations for the South Jersey region.
