Press release from: [BiCOM Inc.](#)

Tonometer Diaton is presented at PAAO Congress in Cancun, Mexico, from May 31 to June 4, 2007.

Tonometry through the Eyelid (el tonómetro Diaton, que toma la presión intraocular a través del párpado) will be introduced in a beautiful City of Cancun, México. BiCOM's Diaton tonometer distributor Farbac, an ophthalmic devices distributor in Mexico will be featuring Diaton at Booths # 150 & 151. BiCOM plans to establish distributors in every Latin American country.

XVII Pan American Congress of Ophthalmology is a perfect entry point for BiCOM to introduce the unique tonometer Diaton to the thousands of participants arriving from México, El Salvador, Costa Rica, Cuba, Ecuador, Brazil, Venezuela, Colombia, Chile, Paraguay, Uruguay, Paraguay, Trinidad & Tobago, Puerto Rico, Panama, Bolivia, Guatemala, Dominican Republic, Haiti, Perú, Honduras, Nicaragua and Argentina.

BiCOM is currently evaluating ophthalmic distributors in each country in Latin America.

Roman Iospa, CEO of BiCOM Inc., says "BiCOM plans to participate in Glaucoma, Blindness awareness campaigns and programs initiated by either governments or private and non for profit organizations. Since intra ocular pressure (IOP) is being measured though the eyelid without contact with cornea and no sterilization or anesthesia is required, Diton tonometer becomes the only tool that enables mass IOP screenings."

Latin America is a strong expansion point for Diaton Transpalpebral (through the Eyelid) tonometry, covering population of over 560 million in addition to 335 million in North America (ref. World Gazetteer).

BiCOM Inc. plans to expand the reach of its unique Diaton tonometry to the Middle Eastern and Asian countries within next 3-6 months.

More information about Diaton tonometer, including clinical trials and distributor opportunities can be found at www.TonometerDiaton.com
