SmartServ Solutions

Bronx, NY June 12, 2007 -- Bronx based SmartServ Solutions announced today that it has been ranked in the top ten for financial services in Citysearch.com's annual "Best of" readers' poll. The list included 4,946 companies within the entire New York area, and also included much larger nationwide firms and agencies. Results can be viewed online at newyork.citysearch.com/bestof/winners/financial_services.

"We are so thrilled to receive such an honor like this and be ranked ninth overall among some of the biggest financial services firms in the country. It not only shows us and the CitySearch.com readers that our customers trust our services but they are also pleased with our results," stated Mario Costanz, President of SmartServ Solutions. "We have found that we serve a very large niche that the bigger firms have forgotten. Our services cater to the "average-Joe"; middle class and blue collar workers who are typically neglected by the larger firms. I would like to congratulate my staff for their hard work and dedication. This is an accomplishment that we can all truly be proud of."

Citysearch.com's Best of Citysearch gives locals the opportunity to vote for their favorite businesses in categories like Restaurants, Nightlife, Shopping, Services, Hotels and Financial Services. The polls are launched with nominations made by Citysearch editors. Throughout the voting period, visitors to the Citysearch.com website are invited to vote for their favorites from the nominee list in each category or to nominate a business they would like to include. After the voting period is over, Citysearch tallies the votes, verifies the vital information of the top ten recipients of votes in each poll and then unveils the results: the best in each city as voted by the people who live there.
