The popular European hotels booking company EuroBookings.com announces the launch of its ‘Things to Do’ adventure planning and booking portal where trip planners can book activities and tours to enhance their vacations.

EuroBookings.com is best known for its deep discount pricing on Europe hotels, with prices listed at up to 75% off the published price. Now pleasure and business travelers can also reserve tickets for attractions nearby with EuroBookings.com’s new ‘Things to Do’ vacation planning utility, located at www.eurobookings.com/things_to_do.

“We listened to our customers and designed an event planning tool based around their very insightful ideas. In my opinion, this is one of the most intuitive event planning and reservation utilities online today,” says Marcel Stillekens, co-owner of EuroBookings.com (www.eurobookings.com).

The ‘Things to Do’ vacation planning utility allows travelers to discover activities by providing a variety of different ways to sort through the thousands of events throughout the Americas, Asia, and Europe. Customers can sort by city, adventure type, keyword, price, specials, hot sellers, and recommended destinations.

Each event listing includes a full featured map so that travelers can plan activities in relation to the hotel of their choice, or choose a hotel based around their selection of activities.

“With today’s technology, it has never been easier to plan an exciting, cost-effective vacation or business trip. In the past, travelers had to rely on travel agents to gain access to this sort of information and discount rates. Our goal was to bring this access straight to the consumer,” says Stillekens.

By booking events prior to traveling, tourists not only reduce stress and avoid the potential of sold-out events, but can also balance their vacation budgets by paying for events months ahead of time and having more cash on hand during their vacation.

Once travelers find their favorite events using the ‘Things to Do’ utility, they can secure tickets at the current low rates and print vouchers that provide them instant access to the event. “The most popular tours and attractions sell out in advance. By being prepared, vacationers can have access to the most highly sought-after attractions,” explains Stillekens.
