

K&N Releases Air Filter for Husqvarna Motorcycles for Added Performance

Date: 07-11-2007 05:10 PM CET

Category: [Tourism, Cars, Traffic](#)

Press release from: [K&N Engineering, Inc. - K&N Filters](#)

K&N Engineering released a new replacement air filter (HU-1200) for several 2000 through 2006 Husqvarna motorcycle models (see model list below). These performance air filters are engineered to fit into the Husqvarna factory airbox without any adjustments.

The new two piece design makes installation, changing and cleaning a breeze.

The K&N XStream Top Filter is popular for dirt bikes. The increased filtration area provides more air-flow while the 4 layers of woven premium cotton media allow for excellent filtration. K&N Air Filters for motorcycles offer optimum air flow for added performance.

K&N invented the pleated cotton air filter more than 35 years ago for the power sports market. K&N Replacement Air Filters are washable and reusable and ideal for extended use in dirty and dusty off-road riding. All K&N off-road filters are covered by our K&N Racing and Off-Road Limited Warranty.

This air filter fits the following models:

2006 HUSQVARNA WR250
2006 HUSQVARNA WR125
2006 HUSQVARNA TE510
2006 HUSQVARNA TE450
2006 HUSQVARNA TE250
