Press release from: [BreedersUSA Inc.](#)

January 2, 2006, Moreno Valley CA -

Jan Cooper has been an AKC Legislative Liaison since its inception, due to a newsletter which she published about her breed of choice, the Rottweilers.

Jan cooper has been educating the general public and various officials for 2 decades on the problems with Breed Specific Legislation (BSL). She has discussed how any form of BSL is not only impractical, but it does not prevent or reduce canine aggression or irresponsible individuals from obtaining dogs that can become aggressive.

Jan has spent over 40 years owning, training and working around various exotic and domestic members of the Pet Community. She has written various articles during her lifetime on animal behavior to help the average pet owner. She was taught to train using what is now called positive reinforcement, by a respected dog trainer in the field. She has been honored and privileged to know some of the finest animal trainers in history. She became an ardent follower of the well known behaviorist, Conrad Lorenz.

As you have I have learned, Jan's love of the Pet Community compelled her to spend her life promoting ethnical dog ownership, and I am proud to know and support her efforts to prevent Breed Specific Legislation.

Jan has spent her professional career protecting the rights of responsible dog ownership by influencing the field the federal statutes and regulations of the Pet Community. The various federal agencies Jan has worked for include USDA, APHIS, VS; USF&WS, LE Div; and NOAA, NMFS, to name a few.

Jan's dedication to the preservation of the right and privilege of owning the breed of dog of your choice has been surpassed by few. It has always been that she believes every citizen should be allowed to own the breed of their choice BUT not that every citizen should be allowed to own a dog.

It is BreedersUSA's privilege to know a person with such passion for the Pet Community. Please visit Jan Cooper's web site at www.rott-n-chatter.com/bsl_broadcasts .
