Press release from: [Goji Berries Inc.](#)

Goji clusters dipped in dark chocolate for enjoying antioxidant rich food with the super taste of dark chocolates, was launched by the leading Goji Berries online store.

Goji Berries USA (www.gojiberries.us) announced today that it has launched Goji clusters dipped in dark chocolate for those seeking to enjoy antioxidant rich Goji berries without compromising on the taste. Jeni Bachleder asked the assembled reporters: "What better way to eat the world's healthiest food and satisfy your sweet tooth at the same time?"

Recent studies show that dark chocolate may improve function in endothelial cells, which are crucial to the proper working of blood vessels. Dark chocolate products are considered to be one of the most concentrated sources of flavonoids among commonly consumed foods. Studies have also shown that a diet which includes foods with high levels of flavonoids may lower the risk of heart disease.

Goji Berries are considered the richest source of antioxidants with ORAC levels exceeding 30,000, much higher than pomegranates, blue berries, blackberries and like. Regular intake of Goji results in vastly improved health without the need for expensive medication.

"You can buy 18 pcs Dark Chocolate Goji Clusters in a convenient package at a highly discounted price from the online store", told Jeni. There is a free shipping offer for all orders above \$40.

About GojiBerries.us

Goji Berries US is the online store where you can order Goji berries, Goji juice and Goji seeds in small and wholesale quantities at very competitive rates. These are directly imported from the Tibetan Himalayas and help to improve your vigor and energy levels with the rich antioxidant properties. They now carry seaweed fertilizer, in both wholesale and retail formats, to aid those desirous of growing their own Goji berries. Visit their online store at www.GojiBerries.us
