A commonly asked question by fragrance shoppers is the difference between testers, and regular fragrances ?

There is no difference between the regular fragrances and testers or unboxed fragrances. Testers are products manufactured by the original designer of the fragrances for promotional purposes only. Some are offered in simply white or brown plain boxes with or without a cap. Some might even have the word "tester" or demonstration written on the bottle. Some Testers come without boxes, but are packaged well to get to the destination safe, without a scratch.

Office Hours - Monday through Friday - 9.30 am to 6.30 pm E.S.T
