### Announcing Partnership with Raritan

Sugar Land, TX and 8/20/07 -- (KVM Headquarters) has joined several other expanding technology companies across the U.S. in partnering with Raritan, Inc. in an effort to help area firms meet their computer network requirements. This new alliance will help customers simplify access, control, monitoring and management of IT infrastructure equipment and the mission-critical services and applications that run on it.

Based in Somerset, NJ and known as a pioneer in the access and control of networks, Raritan has launched a new and improved Partner program designed exclusively to help companies like KVM Headquarters address the growing network problems faced by small to medium sized businesses (SMBs).

Raritan has just introduced their next generation suite of solutions to simplify datacenter and branch office management -- including a more powerful KVM-over-IP solution for remote and 'at-the-rack' server management. Additional new products include the industry's first KVM smart card reader solution for added security, a new KVM switch for managing IBM® BladeCenter servers, and a turnkey solution for managing equipment typically found in remote branch offices. "This is a very exciting time to be partnering with Raritan." said Donald O Malley, Product Manager of KVM Headquarters. "Their new suite of products provides a comprehensive, reliable solution ....."
