Press release from: [About Avidweb Technologies, Inc.](#)

Chicago, IL, January 11, 2006 - Avidweb Technologies Inc., the foremost provider of integrated Jobbex staffing software solutions, today announced the release of Matchhire, an easy to use, easy to implement and fully featured recruiting solution for staffing and corporations seeking a hosted and maintained career website.

Two of the biggest challenges Employers and Recruiters are facing are the large volume of unsolicited resumes and the ability to identify the best candidates for the job. Besides having an applicant tracking system with a sophisticated search engine, Employers and Recruiters need an effective solution to find qualified candidates is through Pre-screen tools.

"We are excited to provide Recruiters and HR departments with a full featured, web-based and easy to use staffing management solution at an affordable price," said Yahya Abutaleb, CEO of Avidweb Technologies Inc. Matchhire is geared to assist manage, screen, and maximize the quality of candidates without the hassle of software and hardware management, in addition, job seeker tools such as automated job notifications and the self-service features keep candidates engaged and the hiring process quick and easy".

Matchhire is a flexible recruitment workflow solution that is delivered as an ASP model to help manage all stages of the recruitment process from posting jobs, attracting candidates, processing resumes, qualifying applicants, all the way through qualified hire from anywhere in a secure admin area.

Matchhire is a cost-effective recruiting solution to find qualified candidates while building an interactive branded career website that effectively targets active and passive candidates and develop pool of talents for futures hiring needs.
