

GAORFID Inc. Announces Two New Blue Tooth Enabled RFID Paddle Readers

Date: 10-18-2007 03:35 PM CET

Category: [Business, Economy, Finances, Banking & Insurance](#)

Press release from: [GAORFID Inc](#)

Agency: **GAORFID Inc.**

These two new RFID Blue Tooth Paddle Readers each provide a smart combination of interfaces for enterprise IT managers wanting to integrate RFID into their systems. The units are available for HF (high frequency) and UHF (ultra high frequency) operation at 13.56Mhz and 902MHz respectively. The RFID units are ideal for the mobile workforce to track and monitor mobile assets and are each readily integratable with a wide variety of wireless handheld PDAs including Symbol, Intermec, HHP, Psion Teklogix, i-mate Jam and Ipaq. Blue Tooth connectivity makes them a perfect retrofit option for businesses that want to add value to their investment in handheld technology. These units are ideal for solutions such as Access Control, Asset Tracking, Warehouse Management, and Livestock Tagging. For complete product specifications visit the GAO RFID Web site.
