

## Murdock Webbing Company Chooses Relian Technology and epcSolutions to Help them meet the DoD RFID Mandate

Date: 10-25-2007 07:37 PM CET

Category: [IT, New Media & Software](#)

Press release from: [epcSolutions](#)

Murdock Webbing a producer of high quality Webbing for the military, has announced that the company has implemented and now running live, epcSolutions' RFID DoD Software. Relian Technology sold and implemented the epcSolutions software package to meet the DoD mandated requirements. This Software will manage all aspects of UID creation, registration, validation, and UID labeling requirements, while seamlessly integrating that data with a complete RFID labeling and Wide Area Workflow (WAWF) submission in a single package.

“In less than three days, Relian Technology had the epcSolutions Software running and printing valid labels,” said Rui Pedro Quality Assurance Manager for Murdock Webbing. “The RFID Handheld and RFID Printer are very easy to use. DoD Suppliers like us must have Software which can handle all the necessary paperwork and requirements mandated by the DoD. Relian Technology and epcSolutions helped us to meet the DoD requirements mandate quickly and without breaking our budget.”
