

Quest Service Labs first to support Lexmark's RFID Laser Printer T640rn

Date: 11-08-2007 02:16 PM CET

Category: [IT, New Media & Software](#)

Press release from: [epcSolutions](#)

Solution offers complete RFID Gen2 Middleware and Compliance Application supporting Wal-Mart & Dept. of Defense RFID Programs

Cleveland, OH – Quest Service Labs makes available today software to support the Lexmark T640rn, the first RFID enabled laser printer. The Lexmark T640rn is the first device on the market to combine RFID capability with laser printing technology, bringing your company a flexible, affordable alternative to current RFID solutions.

"Quest Service Labs have developed a top notch middleware package that supports many of the RFID mandates in the market today. It supports shipping labels from 4" x 6" up to legal size media. What a great fit for the Lexmark RFID T640rn laser printer." Rick Kallop, Lexmark RFID Business Development Manager.

"We believe this product will be well accepted in the industry. The T640rn will have more flexibility for On Demand Printing than other label printers. Quest Service Labs, has been known for its streamlining organization's printing process from RFID print and apply (automation) to desk top solutions." States Al Wilson, President, Quest Service Labs.

The T640rn printer will come pre-loaded with the Wal-Mart and DoD RFID label formats. This allows the software solution to send the variable label data with the proper form name and print commands to the printer and have the printer properly print and encode the label.

"Integrating the printer with epcSolutions product suite was simple and provides our users with the ability to use this printer with any of our applications" states Chuck Williams, CTO, epcSolutions. "We are excited partner with Quest Service Labs in delivering the first application to support the Lexmark laser RFID printer."

This integrated solution is available now through Quest Service Labs.

About Lexmark

At Lexmark, we have a strong sense of values, including strong commitments to the environment, to the diversity of our workforce, and to the communities in which we live and work. Since its inception in 1991, Lexmark has become a leading developer, manufacturer and supplier of printing and imaging solutions for customers in more than 150 countries.

Our mission is to make it easier for businesses and consumers to move information between the paper and digital worlds. We understand what our customers really want. Solutions. Simplicity. It's how we uncomplicate printing, business, life.

About Quest Service Labs

We realize the key to our existence includes the many opportunities given to us by our customers. We are committed to developing mutually beneficial relationships that foster growth and success for all parties involved. For this, Quest Service Labs cannot thank you enough. We will continue to prove our integrity and loyalty in the future.

About epcSolutions, Inc.

epcSolutions, Inc. is the leading provider of RFID compliance software to the Wal*Mart and DoD supplier community. RFIDTagManager's point and click wizards allow users to be compliant in under an hour. RFIDTagManager supports RFID

hardware from leading vendors including Symbol, Zebra, Printronix, Alien, Intermec and others. RFIDTagManager provides a standalone data entry solution out of the box and is easily integrated with any ERP, WMS or database system such as JD Edwards, SAP, Oracle and IBM's AS400 system to provide automated order import and label printing operations.
