

## Dot Com Infoway launches mobile version of its official website

Date: 12-07-2007 03:26 PM CET

Category: [IT, New Media & Software](#)

Press release from: [Dot Com Infoway](#)

Dot Com Infoway, a renowned Offshore Software and Web Development Company in India launched the mobile version of its official website recently. The simple and user friendly mobile version makes it possible for users to instantly access the Company's website via mobile.

Ground-breaking innovation and cutting-edge technology have always been Dot Com Infoway's way of establishing itself. The newly launched mobile version of the Company's official website has reiterated this. This mobile version has been developed using high-end design and mobile tools such as CSS, XHTML and Mobile 1.0. Using advanced mobile technology, the website has been optimised for WIFI, GPRS and 3G mobiles. The site is the result of the arduous efforts of an efficient DCI team comprising of designers, programmers and SEO consultants.

A reputed offshore custom software and web development Company, Dot Com Infoway, has always been the immediate refuge of clients in need of end-to-end IT solutions. The mobile version has been designed and developed to provide easy and instant access to the Company's website. The W3C compatible mobile website has been checked for compatibility with popular mobile devices. It has also passed standardization tests for mobile devices in order to ensure functionality and authenticity.

The DCI mobile site is extremely user-friendly. It has no auto-refresh option which helps in minimizing the cost incurred for data downloading. The reduced size of each web page decreases the download time of the website. With an economical and elegant design, the mobile version is an alluring and easy-to-navigate site.

A step towards greater and instant accessibility, the mobile version of Dot Com Infoway's official website is an IT-solutions-at-your-fingertips venture. Being a quality provider of IT solutions, DCI is one of the most sought-after companies by clients worldwide. This new mobile version will enable clients to easily and instantly seek Dot Com Infoway's services.
