

2007 & 2008 Volvo XC90 Gets Performance Upgrade with New K&N Air Filter

Date: 12-19-2007 02:28 PM CET

Category: [Tourism, Cars, Traffic](#)

Press release from: [K&N Engineering, Inc.](#)

The Volvo XC90 has high-quality interior materials and a lot of cargo space. The comfortable front seats and dimming rearview mirror make the Volvo XC90 a prime choice for luxury and performance.

A 235 horsepower engine comes standard on the 2007 and 2008 Volvo XC90. K&N Engineering has released a performance replacement air filter, 33-2400, that is designed to increase power and acceleration, in these Volvo XC90, while providing excellent filtration.

The 33-2400 is a washable and reusable air filter that fits right into the factory air box of 2007 and 2008 Volvo XC90 models with the 3.2 liter engine. The 33-2400, stock replacement air filter, comes with a one million mile limited warranty. It will be the last air filter you will need to buy for your Volvo.

To find K&N performance products for your Volvo XC90 or any other vehicle visit the Application Search on www.KNFilters.com.
